

BWS17S-7/BWP17S-7

Doosan 7 Series Electric Pallet Stackers 3,300 lb. Capacity

Economy First Class

Doosan Industrial Vehicle America Corp.

Doosan's BWS17S-7 Walkie Stacker moves, lifts, stacks and stores products in your warehouse, making the most of your warehouse space without a large investment.

Standard Features

- A 24-volt Curtis controlled AC drive system is smooth, powerful and efficient, requiring minimal maintenance
- Standard deep cycle batteries and a built-in charger keep products on the move
- The BWS17S-7 comes standard with an hour meter/battery discharge indicator to keep track of hours used and indicates reserve battery power at a glance
- The ergonomic control handle is comfortable to use and intuitive to operate
- Adjustable outriggers enhance versatility and maneuverability
- Offset drive system makes entering loads much easier

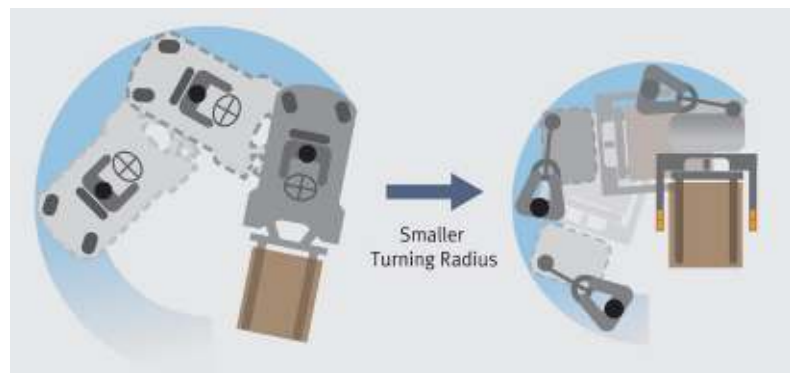

- A standard storage tray provides convenient storage

More Bang Fewer Bucks

Doosan Pallet Stackers - 3,300 lb. Capacity

- Three mast heights 106”, 130”(STD), and 145” give you the versatility to meet your specific application
- A low speed/brake override switch allows creep speed operation while the handle is in the upright position, increasing the ability to maneuver in tight spaces without sacrificing lift speeds
- CAN Bus technology decreases the amount of wiring and the number of connections, reduces mechanical failures and simplifies overall maintenance
- Adjustable spring loaded casters help stabilize loads while lifting and traveling
- Poly Drive Tires provide longer tire life and lower overall energy consumption versus other tire types
- The battery roll-out tray is standard, making it easy to maintain, remove or replace the battery

Tighter Turning Radius

The Doosan Pallet Stacker Series design provides a significantly tighter turning radius than typical counterbalance lift trucks.

An Agile Performer

Doosan's BWP17S-7 Electric Pallet Stacker is equipped to handle many jobs. Whether working in narrow aisles or moving freight on the dock, this walkie truck was designed to supplement full size forklifts in many ways.

Standard Features

- Proven, reliable pantograph reach mechanism allows greater utility for reaching difficult pick locations
- Our 156" triple mast can stack loads high while maintaining a low collapsed height for clearance under doorways or overhead obstructions
- A standard tilting fork carriage helps speed removal and replacement of loads in the rack and provides exact positioning
- The pantograph reach mechanism extends the overall length of the truck providing a tighter turning radius over counterbalanced lifts
- An ergonomic control handle has all hydraulic functions at your fingertips

Ergonomic Control Handle

Lift/Lower Reach/Retract Tilt

Reach Out & Get Things Done

Doosan Pallet Stackers - 3,300 lb. Capacity

- Hour meter/battery discharge indicator keeps operator informed of battery reserve capacity and maintenance intervals
- With the handle in the upright position, a low-speed brake override switch allows creep speed operation, increasing maneuverability in tight spaces without sacrificing lift speeds
- A plexiglass guard offers superior protection and unmatched visibility
- The industrial sized 13" battery provides longer run times necessary to get the job done
- Standard battery rollers and dual side gates allow replacement batteries to be easily removed or installed
- The Curtis Controller provides the precise travel control necessary to maneuver in tight narrow aisles
- Standard spring loaded casters are adjustable and help stabilize loads during lift and travel
- Large base legs provide the stability needed for higher lift heights

The Doosan BWP17S-7 Walkie Pantograph Stacker performs the tasks of larger and more expensive equipment at a fraction of the cost.

BT Series

B15T/B18T/ B20T-7
3,000/3,500/4,000 lb. Capacity
3-Wheel Pneumatic/Cushion Tire Electric
36V/48V

BC Series

BC15S/BC18S/BC20SC-5
BC20S/BC25S/BC30S/ BC32S-7, BC25SE-7
3,000/3,500/4,000/5,000/6,000/6,500 lb. Capacity
Cushion Tire Electric, 36/48V

Finger-Tip Controls (FTC)
(Optional)

Finger-Tip Control (FTC)

Optimal ergonomics provide enhanced performance. Intuitive, precise and highly adjustable, FTC makes operating the new Doosan 7 Series effortless and efficient.

- Adjustable Performance: Fine Tuning for Every Application
- Ergonomically Located Buttons, Arm & Palm Rest
- Fully Adjustable to Fit Most Every Operator
- Up & Down/Forward & Backward Functions
- Durable Structure & Easy to Service
- Recipient of the Prestigious Red-Dot & Pin-up Design Awards

BX Series - Small Chassis

B16X/B18X/B20X-7
3,200/3,600/4,000 lb. Capacity
6 Pneumatic Tire Electric, 48V

BX Series - Mid to Large Chassis

B22X/B25X/B30X/B35X-7 & B40X/B45X/B50X-7
4,500/5,000/6,000 & 7,000/8,000/9,000/10,000 lb. Capacity
Pneumatic Tire Electric, 80V

BSU Series
B15SU/B18SU/B20SU-9
3,000/3,500/4,000 lb. Capacity
Electric Stand-up Rider, 36V

BR 7 PLUS Series
BR18SP/20SP-7 PLUS
3,500/4,000 lb. Capacity
Electric Reach Truck, 36V

BW23S-7
4,500 lb. Capacity
Electric Walkie Pallet, 24V

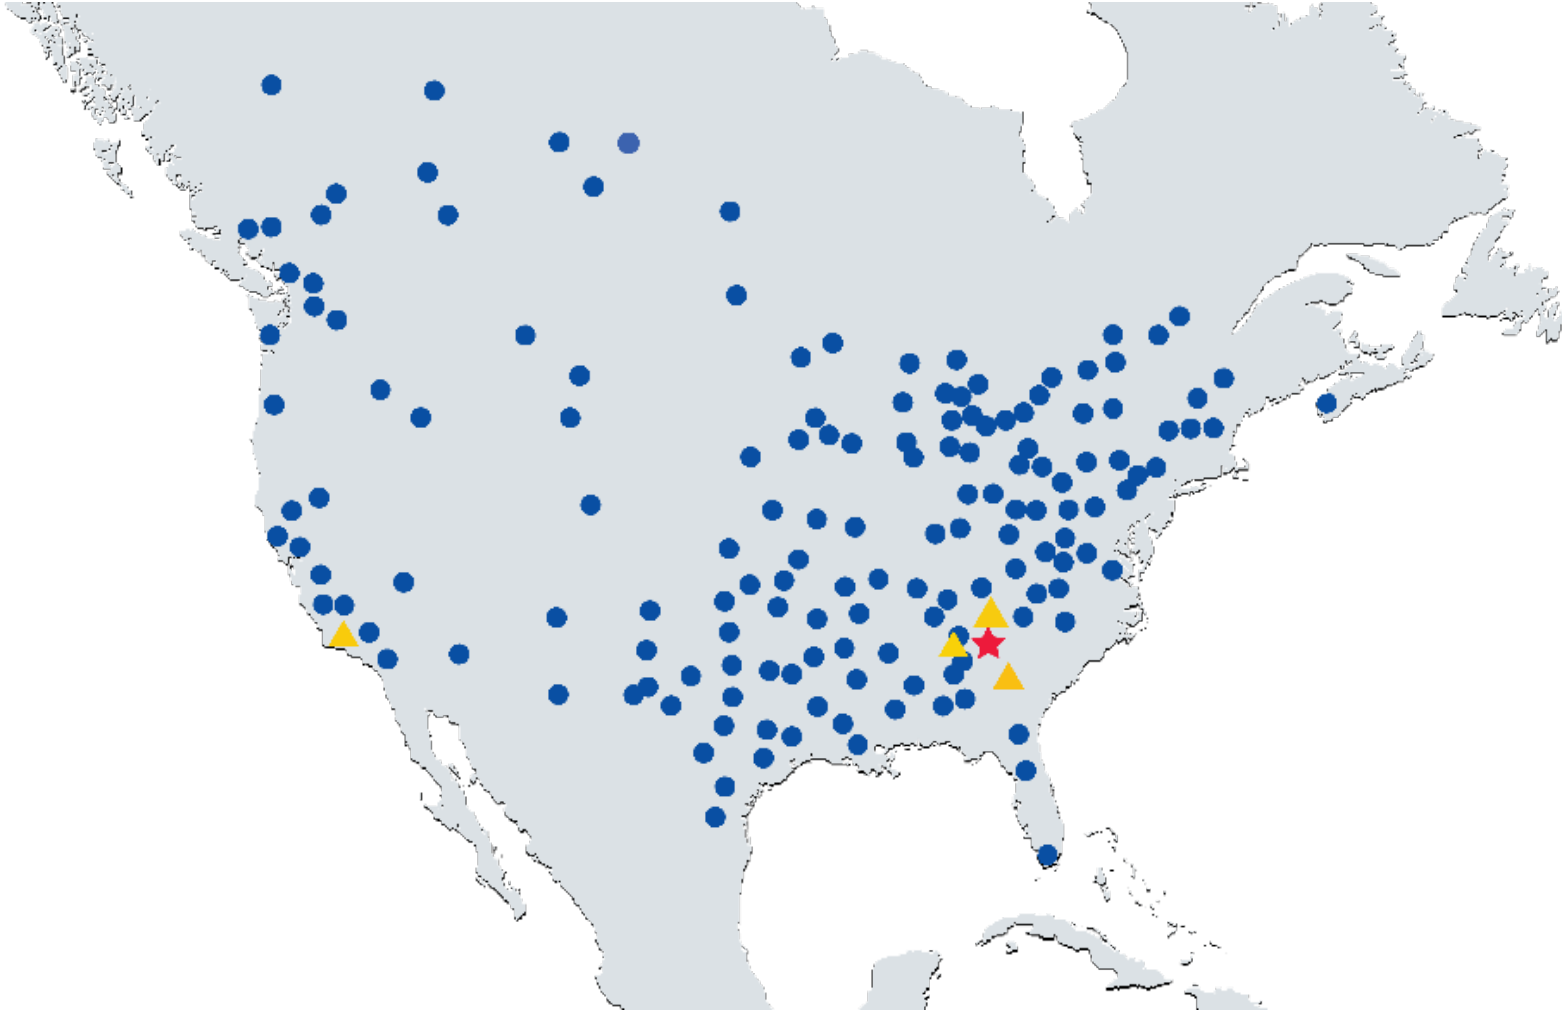

BOP Series
B15OP-9
3,000 lb. Capacity
Electric Order Picker, 24V

BWC33S-7
6,500 lb. Capacity
Center Controlled Rider, 24V

BER Series
B30ER/B40ER-9
6,000/8,000 lb. Capacity
Electric End Rider, 24V

Doosan's North American Dealer Network

Doosan provides superior material handling solutions for your specific needs. From energy efficient electrics to robust internal combustion forklifts, Doosan is your full-line provider.
