

TOYOTA INDUSTRIAL ENERGY SOLUTIONS

Lithium-ion Batteries

You rely on your electric forklifts to get the job done; when they don't run, you don't run. That is where Toyota's lithium-ion batteries step in. The use of a unique cell technology offers a higher energy density in a smaller footprint for a longer-lasting battery.

Toyota's lithium-ion batteries utilize a patented battery design with a ceramic separator and electrolyte technology to increase your productivity. This design helps keep your battery operating at peak performance throughout a shift without losing voltage or performance. Available for select Toyota forklifts*, lithium-ion batteries will keep you on the move. Trust Toyota to support your energy needs. Contact your authorized Toyota dealer to find the right fit for your operation.

Lithium-ion Advantages

- 24V, 36V, and 48V options available to fit a variety of forklift needs
- Maintenance-Free Sealed Battery eliminates the need for watering, equalizing, and replacing batteries
- High-density power provides more energy in less space
- Increased Productivity due to quick, easy, and convenient charging
- Industry Leading Capacity offering a 1,128 amp hour battery inside an 18-inch battery compartment
- Reduced Energy Costs and Operating Costs with a reduced need for additional batteries
- Easy Installation and Implementation with drop-in solutions
- A best-in-class 6-Year Limited Warranty
- UL Listed

* Only available for select Toyota models

TOYOTA INDUSTRIAL ENERGY SOLUTIONS

Lithium-ion Compatible Chargers

To maximize your Toyota Lithium-ion batteries' run time, you're going to need a charger that is effective and easy to use. Lithium-ion chargers offer a plug-and-play solution to easily fit your Toyota lithium-ion batteries and charge quickly to get you back to work. With superior energy management technology, you can expect your charger to run at peak efficiency while only using the necessary modules. Easy-to-change power modules mean easy maintenance. The charger - when combined with Toyota's lithium-ion batteries - takes less time to charge and reduces downtime while removing the need for extra batteries. Trust Toyota to support your operational needs. Contact your authorized dealer for more information.

BEST-IN-CLASS

6-YEAR LIMITED WARRANTY

Charger Advantages

- 120 to 540 amps
- Modular design for ease of service
- BMS controlled for optimal charging
- Multiple configuration capability
- User access to add individual modules
- Plug-and-play solution to fit your lithium-ion batteries and make expansion easy
- Small footprint allows for wall, post, or rack mounting
- 6-Year Warranty to match Toyota lithium-ion batteries
